Western Newspaper Union News Service.

Paris, Nov. 23.—An Emden dispatch last night said the Kaiser was making plans there for a gigantic naval battle in the North Sea, and that already a host of warships was manned and awaiting orders to go out. Emden is the closest of the Kaiser's naval ports to British territory and the announcement that many warships were assembled there came as a surprise to the allies, who had watched closely the continuous patrol the British have kept over that part of the sea. Prince Henry of Prussia was at Emden for an inspection of the torpedo and submarine craft.

Ypres City Hall in Ruins.

London.—The Germans began a violent bombardment of Ypres early Sunday, and reports reaching here and Paris tell of much damage wrought by the Teuton shells, although it is said the great stronghold is still in the hands of the allies. Early during the attack a shell fell in the marketplace in the heart of the city and wrecked several buildings and wounded many persons, among them women and children. A few minutes later, the town hall, the most imposing structure in the city, was hit by a shell and demolished.

Rome.—Przemysl, the great fortress held by the Austrians, has offered to surrender if the garrison can march out with arms. The Russians have refused the terms. Capitulation is imminent.

Plot Threatens Czar's Downfall.

Petrograd.—It is semi-officially announced that the police have discovered a revolutionary plot in which several members of the duma are involved. A number of arrests have been made.

London.—The Russians won two decisive fights on the outskirts of Cracow Saturday according to the official announcement at the war office. This bit of news was supplemented by the Russian official statement, which added that northwest of Lodz the enemy had been defeated with enormous losses.

The extreme cold weather, accompanied by snow, and the exhaustion of the troops engaged, have virtually brought the battle in Flanders and France to a standstill. A desultory artillery duel continues at some points along the wide front and there has been an occasional infantry attack, but for the last three days the fighting has been mild compared with the fierceness of that which for more than a month preceded it.

Two German batteries were annihilated near Verdun. At Ornes, according to the late official statement, the French army captured important heights. In the Argonne the Germans were defeated after a violent encounter. The French now occupy a blockhouse and have established a new line of trenches.

CROPS SHOW BIG GAIN

INCREASE \$8,000,000 OVER LAST
YEAR IN COLORADO.

May and Apples Only Farm Products
that Show Decrease in Prices in
1914 Compared with 1913.

Denver.—Those crops of Colorado that last year brought to the farmers of the state \$56,885,502 will have a value on the farms this year of \$64,518,320, according to the November crop report by the bureau of crop estimates of the United States Department of Agriculture. The increase, 13 per cent, will be distributed among many more farmers than had profitable harvests last year, and the benefits to the state will therefore be much greater than indicated by the \$8,000,000 increase.

The values of those Colorado crops on which the government has already made quantitative estimates this year compare as follows with the values for last year:

Crop	1914.	1913.
Sugar beets	\$9,300,000	\$10,436,502
Apples	2,694,000	3,300,000
Hay	19,788,000	18,240,000
Potatoes	7,020,000	5,980,000
Barley	2,617,560	1,820,000
Corn	7,526,000	4,599,000
Wheat	9,235,620	7,551,000
Oats	5,903,200	4,697,000
Rye	360,640	204,000
Flaxseed	73,300	58,000

Total\$64,518,320 \$56,885,502

The value of this year's crops are figured at current prices, as ascertained by the government, while those for the 1913 crops are the final figures for that year, showing the totals received for the entire year's production at the market prices that prevailed throughout the marketing months. It is therefore possible that the total for 1914 will be increased before the marketing period is ended.

There has been a remarkable increase this year in the production of corn, wheat, apples, potatoes and hay, but in some cases prices are lower than they were a year ago. In sugar beets there has been a sharp decrease in acreage and tonnage, but prices will be higher than they were in 1913, as the sugar content of the beets this year is much higher than last year.

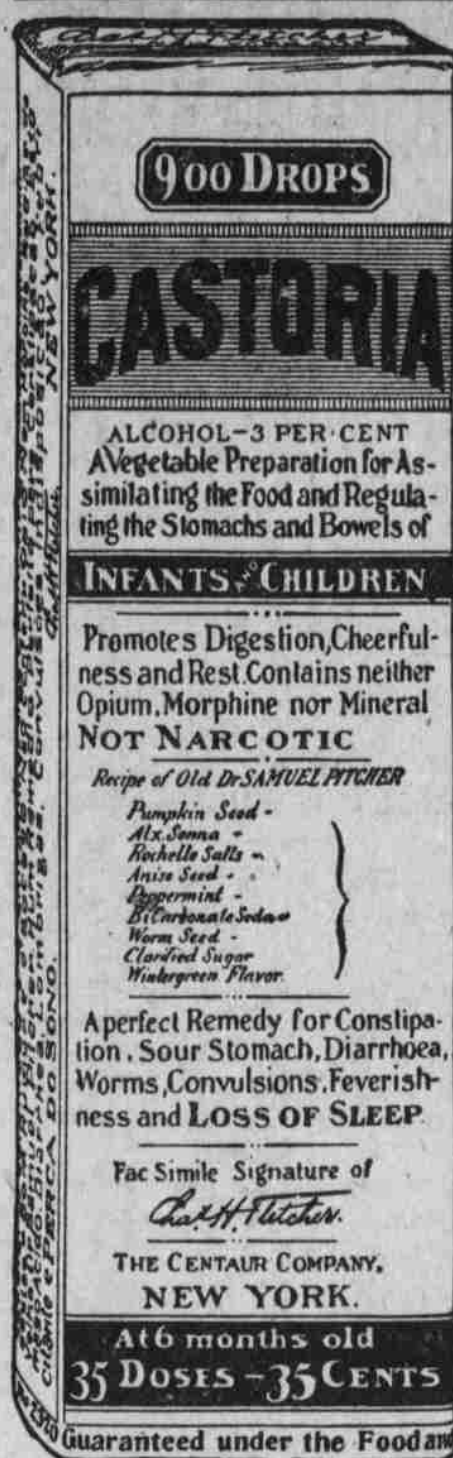

The government gives the following summary of the preliminary estimates of production this year, and final estimates last year, of important products and farm prices November 1:

Men Fight On Their Stomachs

Napoleon so said. A man
with a weak stomach is
pretty sure to be a poor fighter. It is difficult—
almost impossible—for anyone, man or woman,
if digestion is poor, to succeed in business or
socially—or to enjoy life. In tablet or liquid form

Dr. Pierce's

Golden Medical Discovery

helps weak stomachs to strong, healthy action—
helps them to digest the food that makes the good,
rich, red blood which nourishes the entire body.

This vegetable remedy, to a great extent, puts
the liver into activity—oils the machinery of
the human system so that those who spend their working hours at the desk,
behind the counter, or in the home are rejuvenated into vigorous health.

Has brought relief to many thousands every year for over forty years. It can
relieve you and doubtless restore to you your former health and strength. At
least you owe it to yourself to give it a trial. Sold by Medicine Dealers or send 50c for
